# Cal Water Announces First Quarter 2007 Results

SAN JOSE, Calif.--(BUSINESS WIRE)--

California Water Service Group (NYSE:CWT) today announced net income of \$1.6 million and earnings per common share of \$0.07 for the first quarter of 2007, compared to net income of \$0.8 million and earnings of \$0.04 per common share in the first quarter of 2006.

Revenues increased by \$6.4 million to \$71.6 million, benefiting from a \$3.2 million increase in water sales to existing customers, a \$2.6 million increase in rates, and a \$0.6 million increase in sales to new customers.

Total operating expenses for the first quarter of 2007 increased by \$6.0 million to \$66.3 million. Included in this category is a \$4.4 million increase in water production costs, due largely to the increase in customer water usage. Other operations expenses were \$23.7 million, remaining unchanged from the first quarter of 2006.

Maintenance expense increased by \$0.6 million to \$4.5 million for the quarter, while depreciation expense increased \$0.7 million to \$8.4 million, as a result of increases in 2006 capital expenditures.

Other income increased \$0.8 million to \$1.3 million, due to interest income from short-term investments.

Taxes other than income taxes increased \$0.2 million to \$3.4 million as a result of higher franchise fees and property taxes, while total income taxes increase \$0.5 million to \$1.1 million because pre-tax income was higher in the first quarter of 2007.

For the twelve months ended March 31, 2007, net income was \$26.3 million, compared to \$27.4 million for the same period in the previous year, while dilutive earnings per share were \$1.34, compared to \$1.48 for the same period. Revenues for the trailing twelve months were \$341.1 million, compared to \$325.6 million for the same period in the previous year.

"The first quarter of 2007 was unusually dry for many of our service territories, and, as a result, customer demand remained relatively strong. Despite the dry weather, we remain well positioned to meet our customer needs now and in the future. In addition to our long-range supply planning, we continue to support our customers in their efforts to use water wisely," said Peter C. Nelson, President and Chief Executive Officer.

Further, he noted, the Company remains focused on seeking rates that accurately reflect the costs of service and allow stockholders a reasonable rate of return. Management is currently reviewing a proposed decision by the California Public Utilities Commission on the General Rate Case Plan to determine how it will affect Company applications in the future.

All stockholders and interested investors are invited to listen to the 2007 first quarter conference call on May 3, 2007, at 11:00 a.m. (EDT), by dialing 1-866-835-8908 and keying
