

California Water Service Group Announces First Quarter 2011 Results

SAN JOSE, CA -- (MARKET WIRE) -- 05/04/11 -- California Water Service Group (NYSE: CWT) today announced net income of \$2.7 million and earnings per share of \$0.13 for the first quarter of 2011, which includes a favorable, one-time tax adjustment of \$1.6 million, or \$0.08 per share, compared to net income of \$2.0 million and earnings per share of \$0.10 for the first quarter of 2010.

Revenue for the first quarter increased \$7.9 million, or 9%, to \$98.1 million compared to the first quarter of 2010. In the first quarter of 2011, the combined effect of the water revenue adjustment mechanism (WRAM) and modified cost balancing account (MCBA) added \$6.1 million to revenue. The WRAM is a ratemaking mechanism that decouples water sales from revenues and the MCBA is an account that allows the utility to track and recover or refund changes in water production costs.

Total operating expenses for the first quarter of 2011 increased \$5.7 million, or 7%, to \$88.2 million. Water production costs increased \$1.5 million, or 5%, due primarily to increases in wholesaler water prices and higher pump taxes. Administrative costs increased \$3.1 million, or 18%, to \$20.5 million, due primarily to increases in employee wages and benefits costs. Other operations expenses increased \$1.1 million, or 8%, to \$14.6 million, as a result of increases in expenses for conservation, water treatment, and water quality.

Maintenance expense increased 5%, or \$0.2 million, to \$5.2 million, compared to \$5.0 million in the same period last year. Depreciation expense increased \$1.8 million, or 17%, to \$12.6 million, due to increases in utility plant and updated depreciation rates from the 2009 General Rate Case that became effective on January 1, 2011. Income taxes for the first quarter of 2011 reflected a non-reoccurring, favorable adjustment of \$1.6 million as a result of an accounting change in the tax depreciation method used in California which was approved during the quarter by the California Franchise Tax Board. The remaining difference in income taxes of \$1.0 million was due to a decline in pre-tax income compared with the prior year.

Other income, net of income taxes, increased by \$0.6 million due to a decline in non-regulated expenses associated with potential acquisitions recorded during the first quarter of 2010 compared to the first quarter of 2011. Net Interest expense increased \$2.1 million, or 37%, to \$7.8 million, due to increased long-term debt interest from the November 2010 debt offering.

According to President and Chief Executive Officer Peter C. Nelson, "We started 2011 with new rates in effect as of January 1st as a result of the 2009 General Rate Case. As anticipated, water revenues are significantly lower in the first quarter; and we expect that greater amounts of rate relief will be concentrated during the summer and fall months."

"In addition, we started 2011 funding an aggressive conservation program," added Nelson.

"Helping our customers save money and conserve water is a key goal for us, as outlined in the Commission's updated Water Action Plan. The plan's objectives are to maintain high water quality standards, strengthen water conservation, promote water infrastructure investment, streamline the Commission decision-making, provide for low-income ratepayers, and set rates that balance investment, conservation, and affordability," he said.

All stockholders and interested investors are invited to listen to the 2011 first quarter conference call on May 5, 2011, at 11:00 a.m. (EDT), by dialing 1-866-814-1914 and keying in ID# 1519942. A replay of the call will be available from 2:00 p.m. EDT on Thursday, May 5, 2011, through July 4, 2011, at 888-266-2081, ID# 1519942. The call, which will be hosted by Vice President and Chief Financial Officer Martin A. Kropelnicki and President and Chief Executive Officer Peter C. Nelson, will also be webcast under the investor relations tab at www.calwatergroup.com.

California Water Service Group is the parent company of California Water Service Company, Washington Water Service Company, New Mexico Water Service Company, Hawaii Water Service Company, Inc., CWS Utility Services, and HWS Utility Services. Together these companies provide regulated and non-regulated water service to nearly 2 million people in 100 California, Washington, New Mexico, and Hawaii communities. Group's common stock trades on the New York Stock Exchange under the symbol "CWT."

This news release contains forward-looking statements within the meaning established by the Private Securities Litigation Reform Act of 1995 ("Act"). The forward-looking statements are intended to qualify under provisions of the federal securities laws for "safe harbor" treatment established by the Act. Forward-looking statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about the Company, the water utility industry and general economic conditions. Such words as expects, intends, plans, believes, estimates, assumes, anticipates, projects, predicts, forecasts or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. They are subject to uncertainty and changes in circumstances. Actual results may vary materially from what is contained in a forwardlooking statement. Factors that may cause a result different than expected or anticipated include, but are not limited to: governmental and regulatory commissions' decisions; changes in regulatory commissions' policies and procedures; the timeliness of regulatory commissions' actions concerning rate relief; new legislation; electric power interruptions; increases in suppliers' prices and the availability of supplies including water and power; fluctuations in interest rates; changes in environmental compliance and water quality requirements; acquisitions and our ability to successfully integrate acquired companies; the ability to successfully implement business plans; changes in customer water use patterns; the impact of weather on water sales and operating results; access to sufficient capital on satisfactory terms; civil disturbances or terrorist threats or acts, or apprehension about the possible future occurrences of acts of this type; the involvement of the United States in war or other hostilities; restrictive covenants in or changes to the credit ratings on our current or future debt that could increase our financing costs or affect our ability to borrow, make payments on debt or pay dividends; and, other risks and unforeseen events. When considering forward-looking statements, you should keep in mind the cautionary statements included in this paragraph, as well as the Annual Report on Form 10-K, the Quarterly Reports on Form 10-Q, and other reports filed from time-to-time with the Securities and

Exchange Commission (SEC). The Company assumes no obligation to provide public updates of forward-looking statements.
