California Water Service Completes Water Infrastructure Upgrade to Improve Water Supply Reliability and Fire Protection in Stockton

STOCKTON, Calif.—California Water Service (Cal Water) has completed a water infrastructure upgrade to enhance water supply reliability and fire protection in Stockton. Crews installed 2,000 feet of new water main to help increase water supply to customers in the northeast part of town, including businesses, schools, and emergency services.

"This infrastructure improvement project is another step in our proactive approach to providing a reliable supply of safe, clean water to our customers in Stockton long-term," said Craig Stevens, Stockton District Manager, about the project which began in July 2025. "All the work that we do is centered around providing quality, service, and value to our customers for their everyday and emergency needs."

The new main was installed near the intersection of East Stevenson Avenue and Newton Road, and continued east of Highway 99 to Wilcox Road.

This is just one of Cal Water's efforts to continually modernize and upgrade its water system so that it continues meeting federal and state regulations for customers and provides them safe, clean, reliable water, both now and in the future.

About California Water Service

California Water Service provides high-quality, reliable water utility services to about 176,000 people through 48,000 service connections in Stockton and serves more than 2.1 million people statewide through 499,400 service connections. Cal Water's purpose is to enhance the quality of life for customers and communities. To do so, it invests responsibly in water and wastewater infrastructure, sustainability initiatives, and community well-being. The company's 1,200 employees live by a set of strong core values and share a commitment to protecting the planet, caring for people, and operating with the utmost integrity. The utility, commemorating a century of service this year, has been named one of "America's Most Responsible Companies" and one of the "World's Most Trustworthy Companies" by Newsweek, a USA Top Workplace, and a Great Place to Work®.
