

California Water Service Group Announces Second Quarter 2013 Results

SAN JOSE, CA -- (Marketwired) -- 07/31/13 -- California Water Service Group (NYSE: CWT) today announced net income of \$13.5 million or \$0.28 per diluted common share for the second quarter of 2013, compared to net income of \$13.0 million or \$0.31 per diluted common share for the second quarter of 2012. The year-to-year decrease in earnings per share is attributable to the dilutive effect of the stock offering completed in March 2013.

Revenue for the second quarter of 2013 was \$154.6 million, compared to revenue of \$143.6 million in second quarter 2012. The increase in revenue is due primarily to an increase in usage of \$9.6 million, net of WRAM, which includes a \$3.6 million increase in accrued unbilled revenue. Rate increases added \$3.8 million in revenue and the effect of other regulatory mechanisms decreased revenue by \$2.4 million.

Total operating expenses for the second quarter of 2013 increased \$9.9 million, or 7.9%, to \$133.8 million. Water production costs increased \$7.0 million, or 13.2%, to \$59.6 million, due primarily to increased wholesaler water prices and increases in the quantity of water produced. Administrative and general expense and other operations expense increased \$0.3 million, or 0.7%, to \$40.2 million, due primarily to increased wage and employee benefit costs, which were partially offset by decreased conservation program expense.

Maintenance expense decreased \$0.4 million, or 9.0%, to \$4.2 million, due primarily to a decrease in main and service repairs. Depreciation expense increased \$0.8 million, or 5.7%, to \$14.5 million due to 2012 capital additions.

Other income, net of income taxes, decreased \$0.2 million in the second quarter of 2013. Interest expense increased \$0.4 million, or 5.7%, to \$7.3 million due to a decrease in capitalized interest charged to construction projects.

According to Chairman and Chief Executive Officer Peter C. Nelson, second quarter results were in line with the company's expectations.

"Given the fact that 2013 is the third year of our General Rate Case cycle in California and we expect to receive only limited rate increases, we continue to focus on managing operating expenses and working toward the best outcome in our current General Rate Case filed in 2012," Nelson said.

"The Company continues to have productive settlement negotiations with the California Public Utilities Commission's Division of Ratepayer Advocates and other interested parties. Hearings on the case are scheduled to resume in August, and a final decision is expected to become effective at the end of 2013," he said.
