Item 2.02 Results of Operations and Financial Condition.
(Amounts in thousands)

On March 28, 2006, the Company received an amended report from its actuary regarding the future benefit payments expected to be paid related to the Company's pension plan(s) in each of the next five fiscal years and in the aggregate for the five fiscal years thereafter.

The following corrects and replaces two sentences contained in the third paragraph of Note 12 "Employee Benefit Plans" in the Notes to the Consolidated Financial Statements attached as part of Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2005:

Delete:

Excluding costs to annuitize future retirement benefits, benefits expected to be paid in each year from 2006 to 2010 are \$2,610, \$3,266, \$4,412, \$5,617 and \$5,683, respectively. The aggregate benefit expected to be paid in the five years 2011 through 2015 is \$39,142.

Replaced by:

If monthly benefits are paid to future retirees, rather than with a purchase of an annuity, payments expected to be made in each year from 2006 to 2010 are \$920, \$1,210, \$1,673, \$2,239 and \$2,870, respectively. The aggregate benefits expected to be paid in the five years 2011 through 2015 is \$26,729. If annuities are purchased for the retirees rather than making monthly payments, the payments for the same time period would be approximately \$2,819, \$3,947, \$5,448, \$6,922 and \$7,425, respectively. The

aggregate benefit expected to be paid for annuities in the five years 2011 through 2015 would be approximately \$51,006.

The impact of the above change did not affect the Balance Sheets, Statements of Income or Statements of Cash Flows or other disclosures in the Notes to Consolidated Financial Statements.
